Raising London Circuit

Raising London Circuit

Raising London Circuit will bring significant and lasting benefits to the city by transforming the southern end of the CBD into people-oriented streets for pedestrians, cyclists and public transport. It is a key enabling piece of infrastructure for the delivery of light rail.

Business Partnerships

In the lead up to work starting, we want to stay up to date with businesses in the construction zone and keep you well informed. We've identified your business as one that might benefit from an ongoing business partnership plan. Get in contact with us if you'd like to hear about having:

- A dedicated business relationship manager
- High quality wayfinding and signage
- Clear and regular project information
- Events and activations in the area

For more information contact:
lightrailtowoden@act.gov.au or call **1800 956 409**

Tell us more about your business.

Scan the QR code to complete a short business questionnaire, so we can get in touch and discuss your needs and ideas.
