Woolley Street Plaza Components

Pod seating areas under new mature shade trees, with a diversity of seating types and arrangements

Non-reticulated pop-jet fountain with potable water on an activated timer system. Used water recycled to irrigate adjacent plantings.

Lawn area retained by steps and robust concrete walls, to be shaded by new mature trees

New sculptural feature shade structures to main plaza, to be populated by adjacent tenancies and shop owners. These shade structures are to be designed in consultation with community.

Feature moon gate to provide a connecting aperture across the plaza space
